#### BUCKHORN HAS FINE SHOWING SPLENDID ORE

The first road improvement undertaken by the county with the tractor recently received, was on the highway leading from Tonopah to McCann station, and the machine is now engaged in repairing the road leading to the Joe May ranch, and the Buckhorn mine which is being operated under lease by Monahan, E. Louis Cassatt and Chas. Willets and Marty. Shipments of high grade ore will be started in a short time.

The Buckhorn property makes a fine showing, and last fall a shipment of ore was made that brought a mill settlement of \$115 a ton. This ore is being extracted through the shaft at a depth of 160 feet, and development of recent weeks has resulted in a good reserve having been blocked which will insure a steady tonnage during the summer months.

#### SOUTHERN END OF NYE COUNTY VERY ACTIVE

Beatty, Springdale and Pioneer Now Showing Prosperity Following the New Activities.

The sections surrounding Beatty, Springdale and Pioneer are being given more attention at the present time than during any similar period in years, and a great season of prosperity seems to be dawning for the southern section of Nye county. Residents of those towns are feeling optimistic over conditions in general, and it begins to look like there was to be a rapid settlement of the surrounding country and that the territory in question would be made to blossom in an agricultural and horticultural way, as well as a result of the activities of the prospectors who have been invading that country of late.

Many land locations under the Pittman act have been made during the past year, and two drilling rigs have been taken into the Springdale section. H. J. Pullen has one rig in place and boring for water has been started. He also has a portable rig on the ground and will probably do drilling for other people. Mr. Pullen is planting a large number of grape vines on a portion of the Lidwell ranch and also proposes to set out a number of fruit trees.

The prospector has been busy working out of Beatty, and many of the older sections, such as Pioneer, are showing a new lease on life and will no doubt proceed to give a good account of themselves during the following months.
